Will Rogers  
Remarks:

PALM BEACH (Fla.) March 18. (To the Editor of the Times): Mayor Walker just blew into Palm Beach, the winter residence of New York's Mayor, on time. I am here giving a benefit for the Salvation Army tonight and Jimmy has graciously agreed to introduce me. That shows you that these mayors stick together even if one has been thrown out. I think that town out West (you never hear its name any more) made a mistake by naming me, and New York would make a bigger mistake if they ever let Jimmy go. He is a great ad for Tammany Hall. He is to them what the Prince of Wales is to England, without the falls.

FIREBUG'S  
HAND SEEN  
IN BLAZE

Mountain View Church  
Destroyed by Fire in  
Early Morning

SAN JOSE, March 18. (P)—Fire believed to be of incendiary origin destroyed St. Joseph's Catholic Church at Mountain View, fifteen miles north of here, early this morning, causing a loss estimated at \$100,000. Mountain View police officers who reached the scene at 3 a. m. found the entire south end of the church ablaze, and later reported finding empty oil cans and blazing oil-soaked rags. Father J. W. Galvin, vicar of the church, said the fire started in the sacristy, and spread quickly all over the church. The fire department was powerless to save the parsonage, however.

## PLEA RENEWED TO OUTLAW WAR

Prominent Citizens Write to President Coolidge. Treaty Against Aggressive Conflict Advocated. "Emancipation of Entire Race" Foreseen by Group.

## WASHINGTON, March 17. (AP)—

A group of prominent American citizens advocate in a letter to President Coolidge today the immediate negotiation of a multilateral treaty to outlaw aggressive war, although the administration has made it plain that the term "aggressor" in its opinion is not susceptible of clear-cut definition.

## GENERAL'S ON LIST

Among the signatories to the letter are Maj.-Gen. John F. O'Ryan, S. Parkes Cadman, Maj.-Gen. Henry T. Allen, Henry J. Allen, former Governor of Kansas, Harry Emerson Fosdick and William Allen White.

## AGGRESSOR OUTLAWED

"Such enactment would put an aggressor nation outside the protection of international law. This would be a great advance over existing international law, which by its many rules for the game of war, makes it a legalized institution and gives to the strongest and most rapacious nation the legal possession of all that it can take and hold."

## Awards Made for Improving Race Relations

WASHINGTON, March 18. (AP)—James H. Dillard of Charlottesville, Va., and Julius Rosenwald of Chicago are the recipients of the Marmon awards for outstanding contributions in 1927 toward improving relations between white people and negroes.

## BITTEN BY DOG, PAIR HUNT FOR "MADSTONE"

STANFORD (Ky.) March 18. (Exclusive)—After having been bitten by a wild dog, Mr. and Mrs. W. B. Ashley of this county at last accounts were trying to find a "madstone" and had not been successful. They were near their home when a dog came along, attacking them and, before he could be driven away, had bitten the man and his wife. When it was determined that the dog was afflicted with hydrophobia, the Ashleys started out on a hunt for the "madstone," but had not been successful at most recent reports.

## FIVE CHILDREN DIE IN NURSERY BLAZE

SALFORD (Surrey, Eng.) March 18. (AP)—Five small children burned to death in a midnight fire at the nursery school for children here. The nearest fire brigade was two and a half miles distant and when the firemen arrived the entire upper part of the building was ablaze. The teachers worked heroically to rescue the children, but five who were on the top floor perished. There were fifty children in the school.

## GERMAN ENGINEERS RELEASED IN RUSSIA

MOSCOW, March 18. (AP)—Two of the six German engineers recently arrested on charges of sabotage in the Don region of coal fields have been released by order of the prosecuting authority. They were named Goldstein and Wagner. The four others still are held, together with numerous other persons who were arrested on the same charge.

## GOLF HOSPITAL FOR DEVOTEES

Chicago Sanatorium Project Includes Course for Ailing Addicts. CHICAGO, March 18. (AP)—A combination club - hotel - convalescent sanatorium, where plus fours and golf clubs will be more numerous than nurses' uniforms and crutches, will be constructed in the Flossmoor district south of Chicago at a cost of \$1,200,000.

## CAPPER WANTS 'SMUDGE' WIPED

Senator Denounces Teapot Dome Oil Scandal. Urges "Merciless Publicity" for Campaign Funds. Republican Party Advised It Must "Purge" Itself.

WASHINGTON, March 18. (AP)—Advocating "merciless publicity" as the source of campaign funds, Senator Capper of Kansas, Republican, tonight made a blanket attack on the whole Teapot Dome scandal including Harry F. Sinclair's campaign contribution to the treasury of the Republican National Committee.

"For spectacular rottenness," he declared in a statement, "I doubt whether we have the equal of Teapot Dome in American history, or ever will have."

"The Republican party," he added, "must purge itself from the oil smudge," and by forceful action demonstrate that it repudiates all those who had to do with the Teapot Dome lease.

"The job must be thoroughly done," he declared. "I believe it will be thoroughly done."

"The Republican party," he added, "must purge itself from the oil smudge," and by forceful action demonstrate that it repudiates all those who had to do with the Teapot Dome lease.

"The job must be thoroughly done," he declared. "I believe it will be thoroughly done."

## ITALY RUTHLESS IN SOUTH TYROL

Historic Race Being Forced Into Oblivion

Restrictions Put on Culture and Religion

Oppression and Taxes Make Exodus Imperative

BY LARRY RUE  
(Copyright, 1928, by the Chicago Tribune.)  
VIENNA, March 18. (Exclusive)—Despite the promises of Italian statesmen at the peace conference and the King himself in a throne speech, Italy systematically has begun a policy destined to destroy the last vestiges of former German South Tyrol of a race whose written records date back more than 1300 years. What formerly was the fear that "Italy wants territory but not inhabitants" now is a conviction.

After an extensive visit to South Tyrol I am convinced that although the restrictions on language, schools, religion and culture alone constitute a greater cause for exodus than in the age of intolerance, when the Albigensians and Huguenots were forced to emigrate to the United States, Italy is not content only with making life for the Germans unbearable in these respects, but has adopted an economic program destined to create for these heretofore thrifty people difficulty in obtaining their daily bread and necessities for existence.

**EXODUS FORCED**

It seems clear that by a system of oppression and taxation, Italy not only is giving reasons for the exodus, but is creating conditions where an exodus from this territory becomes necessary, so the Italians can take over the farms, industries and hotels, many of which are ancestral properties, going back generations.

The entire population is cowed. It is exceedingly difficult for new-comers to obtain facts owing to the severe penalties imposed on those who even are suspected of telling outsiders their troubles. Several men of prominence whose moral reputation is above question, including a priest, begged me not to make efforts to see them as they constantly are under surveillance by the Fascist "Cheks."

From others I obtained facts after employing ruses, meeting no one in his home and even riding into the country to make contacts. However, I confirmed every accusation which Dr. Kolb recently made against Italy in the Austrian Parliament, which aroused Premier

## LOVE SWEETENS LEMONADE

American Girl Pounces on Itinerant Egyptian Vender in Cairo and Insists on Marrying Perplexed Peddler Because He Looks Like Deceased Frenchman

CAIRO (Egypt) March 18. (Exclusive)—An itinerant Egyptian lemonade vender, one of the class whose large, gaudily decked jars, slung on their backs, and incessantly tinkling brass cups form one of Cairo's picturesque sights, appeared yesterday at the police station in the native quarter of Cairo with a well-dressed American girl tourist affectionately clinging to his arm, and explained that the girl suddenly had pounced on him in the street, embraced him and refused to leave him, without his being able to understand what it was all about, owing to his ignorance of English and the girl's inability to speak Hebrew or Arabic.

Eventually the lemonade vender discovered, through a passer-by, who was able to translate from the girl's speech into his tongue, that she insisted on marrying him instantly. Despite all his attempts to dissuade her the girl remained with him until afternoon, when, in desperation, he took her to the police station.

Mussolini's ire to a point where he even threatened "action against Austria."

**SOUTH TYROL SUFFERS**

Wrote Premier Mussolini's Fascists resented to every crime, including murder, to rid the country of opposition, and the entire country does not possess any political freedom. It is South Tyrol which is suffering more than any other district. It is not only deprived of any semblance of local autonomy which the territory enjoyed for centuries, but by a series of arbitrary decrees, the practices, habits, traditions, customs and language for generations, the only ones these people know, have become crimes. This is literally true.

It is against the law even to write a business letter in German, much less permissible to have a German sign. Even a German name is outlawed. One man was fined for having his name, Johann, printed and placed before his business location. It was changed to Giovanni. While old grave stones are not erased, new ones must be engraved in Italian script only.

Public instruction in German is prohibited. Those wishing their children to learn the language must hire private tutors. Teachers are not permitted to instruct more than two pupils. One teacher who privately taught five children their ABC's was handcuffed, marched publicly through the streets and thrown into a bull pen with prostitutes. Priests, too, are constrained to give instructions in German despite the risks and imprisonment of several.

**TAXES HIGH**

A shoemaker told me his taxes amounted to one-fourth his income, and besides he was forced to contribute to the Fascist party.

A farmer owning ten acres of land, whose yearly income amounted to \$200, was assessed a \$40 property tax alone. Unable to pay, the Italians took a pig and later a cow. Now he is trying to sell out, and even here is unable to get rid of his land on the open market as the transfer is controlled by the government, which usually sees that Italians get the business at advantageous prices. Italian farmers who take over lands get bonuses instead of paying taxes.

The Fascists are impoverishing communities in many places in commemorating the Italian victory.

**GERMANS WILL TRY HOP OVER ATLANTIC**

DUBLIN, March 18. (Exclusive)—Two German aviators, contemplating an early trans-Atlantic flight to America, will jump off either from Baldonnel airfield or Oranmore, county Galway, Capt. Kohl, with another noted German aviator, inspected both airfields. It is understood the machine they are to use will be sent to Ireland immediately. They will await favorable weather.

## M'COY NAMED IN NICARAGUA

Brigadier-General Appointed Electoral Board Head

Court Step Follows Rejection of Poll Supervision Law

Presidential Decrees Will Back Proposed Action

MANAGUA (Nicaragua) March 17. (Exclusive)—As a result of the defeat of the electoral supervision law by the Nicaraguan House of Deputies, the Supreme Court has appointed Brig.-Gen. Frank McCoy as president of the electoral board, created under the electoral Doda law, which first was placed into effect in 1924, when Carlos Soler was elected President. The draft of the law was prepared by Harold W. Dodds, Princeton University professor, who, it is rumored, will arrive in Nicaragua in June to assist in the election supervision work under Brig.-Gen. McCoy.

As the Doda law does not provide necessary legislation to fully cover legally the rigid supervision intended in the coming election, Presidential decrees soon will be promulgated covering fully the proposed action of the McCoy forces as election supervisors.

The election board under McCoy will consist also of one Liberal and one Conservative member. Joaquin Gomez, now in Washington, who was a member of the Nicaraguan delegation to the Pan-American Congress at Havana, has cabled his resignation from Washington as president of the electoral board to permit Brig.-Gen. McCoy's appointment.

Ever since the defeat of the electoral law in Congress, President Diaz repeatedly has assured both the American legation and Brig.-Gen. McCoy that everything legally possible will be done to make effective the election supervision as agreed on in the Tipitapa pact with Henry L. Stimson, and today's action is the result of full co-operation with President Diaz.

**ALUMNI OF MEDICAL SCHOOL PLAN FETE**

SAN FRANCISCO, March 18. (P)—Alumni of the University of California medical school will hold a homecoming day program on the local campus of the institution on the 22nd inst., one day before the sixtieth anniversary of the granting of a State charter to the university in 1868. The program is tentatively complete.

## OUR HISTORY IN PICTURES 980 The Story of Our War With Spain. Prospects of American Intervention in Cuba. by J. CARROLL MANSFIELD

UNDER THE BRUTAL RULE OF THE SPANISH GENERAL WEYLER, THE WAR IN CUBA BETWEEN THE SPANISH FORCES AND THE CUBAN REVOLUTIONISTS CONTINUED WITH EVER-INCREASING HORRORS. WHILE THE NEUTRAL PEASANTS STARVED IN WEYLER'S "RECONCENTRATION" CAMPS, MUCH OF THE ISLAND WAS DEVASTATED WITH A LOSS TO AMERICAN INVESTORS ALONE OF NEARLY \$50,000,000.

IN THE UNITED STATES, THE PUBLIC DEMAND THAT THIS BARBAROUS AND RUINOUS WARFARE BE STOPPED GREW LOUDER AND STRONGER. PRESIDENT CLEVELAND HAD MAINTAINED NEUTRALITY WITH DIFFICULTY DURING HIS ADMINISTRATION, AND DECLARED THAT IF THE CUBAN WAR DID NOT CEASE WE SHOULD BE COMPELLED TO INTERVENE.

IN 1897, PRESIDENT MCKINLEY DEMANDED THAT SPAIN SHOULD TAKE IMMEDIATE MEASURES TO PACIFY CUBA. IN SPAIN THE LIBERAL PARTY HAD JUST COME INTO POWER, AND THE SPANISH GOVERNMENT, AFTER SENDING US A CONCILIATORY REPLY, RECALLED WEYLER, AND SENT GENERAL BLANCO TO CUBA TO MAKE REFORMS.

BLANCO PUT AN END TO THE WAR IN CUBA. HE TOOK STEPS TO RELIEVE THE PEASANTS, ADMITTED CUBAN OFFICIALS, AND FORMALLY PROMISED "CUBA IN FULL RULE". BUT THE CUBAN INSURGENT LEADER, REFUSING TO ACCEPT ANYTHING SHORT OF ABSOLUTE INDEPENDENCE, THREW DOWN THE GLOVE.

### NANCY MILLER NOW PRINCESS

Delayed Hindu Wedding Ritual Ended

With Bejeweled Feet Tied to Bridegroom

Title of Maharani Given to Sharmista Holkar

MUMBAI (India) March 18. (AP) — A delayed and imposing Hindu wedding is ended at last today with the marriage of Miss Nancy Miller, an American, to a Hindu prince, Sharmista Holkar, Maharani of Dewas. The ceremony, which was held in the presence of many guests, including the British viceroy, was a most impressive affair. The bride, who is a beauty, was dressed in traditional Hindu attire, and the groom, who is a prince, was dressed in a military uniform. The wedding was held in a large hall, and the ceremony was presided over by a Hindu priest. The bride and groom were joined in marriage by the priest, and the ceremony ended with a feast for all the guests.

## LOOKS LIKE BLOW AT PATRIOTISM

Rail Chief Asks Higher Freight Rate for Hauling Them on Tandem Cars

SAN FRANCISCO, March 18. (Exclusive)—Two flat cars coupled in tandem to carry one piece of freight weighing only a few pounds, and for which only a small tariff is charged, is too expensive a proposition for railroads to continue. So F. W. Gompi, Pacific freight-tariff bureau agent, went before the Railroad Commission and asked an increase in the rate on flagpoles.

"It is true," he agreed, "that transportation of flagpoles is a comparative rarity, but, who knows, an epidemic of flagpole buying might break out, and then where would we be?"

which began yesterday and lasted until a late hour, were a trying ordeal for the western girl not accustomed to the elaborate eastern customs, but she came through with perfect composure and smiled and chatted with the bridegroom occasionally during the ceremony. The 25,000 spectators broke into loud cheering as the procession headed by the bride and groom advanced from opposite directions to the beautiful pavilion specially erected outside Darya Mahal Palace. As soon as the principals alighted they seated themselves, according to custom, on wooden planks facing each other—Miss Miller toward the east and the bridegroom toward the west. The former Maharajah, resplendent in diamonds and wearing a ruby necklace, appeared calm and absorbed but occasionally nodded recognition to distinguished personages in the assemblage. Miss Miller, in a suit of silk and gold brocade, wearing a diamond ring and bangles set with brilliant, was equally as serene.

JOINED BY GOLD THREAD  
Miss Miller's grandmother, who sat in a chair next to the bridegroom, followed the lengthy proceedings with intense interest. The ceremony was conducted according to strict Mahatma rites, the bride being barefooted with gold ornaments on her toes. The rites included the partaking of rice, sprinkling of holy water, solemn vows before sacred fire and worship of deities.

Col. Lambhate gave Miss Miller away and after the couple mounted the dais they were joined by a golden thread and declared man and wife. After the knot was tied the couple ceremoniously worshipped sacrificial fire of bark and steam of the sacred persal tree. At the conclusion of this part of the ceremony, which lasted more than two hours, the bride and bridegroom went in procession to the latter's residence where they worshipped the goddess Lakshmi—the goddess of wealth, beauty and fortune.

The palace was beautifully illuminated for the huge banquet, which was attended by 10,000 guests, including many of the most prominent people in India, and many Europeans. It was said, however, that neither the Junior Maharajah nor any high officials of the state were present.

## Common-Law Wife Awarded Widow's Share

OKMULGEE (Okla.) March 12. (P) In an opinion bitterly denouncing friends and relatives of the late W. T. McKallip for what he termed their attack on McKallip's character, County Judge Swain last night recognized Betty Schumann, 21 years of age, as the common-law wife of the wealthy Okmulgee oil operator and held that she was entitled to half of his estate, which is estimated at more than \$2,000,000. Judge Swain declared in his decision that a careful study of all of the features of the case led him to believe that Miss Schumann's contentions were correct and that she was entitled to a widow's share in the McKallip estate.

Miss Schumann's claims were hotly contested by other heirs of McKallip, who based their case on a will filed in Houston, Tex., which cut the young woman off with \$30 a month for the next twenty years, and on the contention that Miss Schumann was the housekeeper and not the common-law wife of the oil man.

## NEW CLOUDS IN RIVER BILL SKY

Showdown Likely Today on Several Amendments

WASHINGTON, March 18. (P)—New storm clouds loomed on the Boulder Canyon horizon today as House advocates of amendments already attached by a Senate committee to the Swing-Johnson bill for a large power dam on the Colorado River marshaled their votes for a showdown tomorrow in the House Irrigation Committee.

One of the changes embodied in a Senate amendment—that providing for a division of revenue between Arizona and Nevada—will be advocated by Representative Arenz, Republican, Nevada, at a meeting of the committee tomorrow when it is expected that discussion of the measure will be reopened.

The Arenz proposal has gained new support during the last week and its proponents believe there is a possibility that it will be accepted by the committee. In this event, it will be offered on the House floor as a committee amendment when the measure comes up. The bill already has been reported to the House.

Along with the Arenz amendment, there is a probability that one of the southwestern members of the committee will urge the adoption of the Mexican water stipulation proposal carried in one of the Senate committee amendments to the bill.

Representative Swing, Republican, California, coauthor of the measure, has indicated that he will not object strenuously to any amendment which he does not consider a danger to the financial and economic soundness of its structure.

In addition to the probable skirmish in committee over proposed changes, indications are that the measure will face a severe battle on the floor in the event that it is brought up this session.

Two of the committee members who dissented from the majority re-

## HERE'S WHY WRITER IS HOMELY

Germany's Most Popular Novelist Explains Authors Too Busy With Brain Output to Bother About Being Attractive Personally

BERLIN, March 18. (P)—Authors, composers and playwrights are seldom good looking and are too concerned about making the output of their brains attractive to worry about making their person attractive. In the opinion of Frau Hedwig Courths-Mahler, Germany's most widely read novelist, Speaking with the authority of thirty years of literary endeavor which has netted her sales of 20,000,000 copies of her more than 100 novels, Frau Courths-Mahler fired some pointers on the subject at the Associated Press correspondent.

"Have you ever attended a first night when a playwright or composer was called before the curtain? Have you noticed how badly he contrasts with what you imagined him to be? Don't you often wish you had never met your favorite author because he or she fails to come up to your expectations?"

Without waiting for a reply Frau Courths-Mahler herself supplied the answers. "I'll tell you the reason why we authors stack up so poorly in comparison with stage folk, we are so concerned about the output of our brains and determined to make it attractive to our readers that we are bound to neglect our person. We haven't time for so-called beauty parlor hours having our faces lifted and protruding ears thrown back, we grow old at our writing tables without realizing it."

port and opposed it in that body are busy on minority reports. That of Representative Douglas, Democrat, Arizona, which he will file early next week, contends that the project is primarily one of power and that the irrigation and flood-control elements of the bill are secondary objects.

The Arizona member charges that the total value of the property to be protected in Imperial Valley is less than the \$125,000,000 the measure would authorize for the project.

## FLOOD BILL DUE IN SENATE SOON

Measure Expected to Reach Floor This Week

WASHINGTON, March 18. (P)—Two major pieces of legislation, flood control in the Senate and the annual Navy Department supply bill in the House, will command a large share of Congressional attention during the next six days.

The \$328,000,000 Jones flood bill will come before the Senate immediately upon disposition of the Norbeck measure proposing establishment of permanent wild-bird refuge areas to make more effective the wild-bird protection treaty with Great Britain. Leaders hope to have the latter out of the way in a day or two.

Consideration of the Jones bill will mark the first time that legislation for control of the turbulent Mississippi River has reached the floor of either House and it is certain that many stormy verbal battles will be fought before any final action is taken.

In the House the navy appropriation bill will follow, with only one day intermission, the approval by that body last week of the \$274,000,000 new warship construction program which now goes to the Senate Naval Committee for consideration.

## DRISER FINDS ADVANCED SOCIOLOGY IN RUSSIA

Sees Much to Approve in Labor and Educational Systems and Calls Sex Relations "Glorious"

(This is the second of a series of articles by Mr. Driser, author of "An American Tragedy," in which he presents what appear to him the good and bad features of Soviet rule in Russia. He returned recently after eleven weeks of observation in that country.)

BY THEODORE DRISER

(Copyright, 1933, in all countries by North American Newspaper Alliance.)

Go where you will in Russia you will find earnest efforts being made to provide working and living conditions so vastly improved that, as I said in my first article, they appear to some even fantastic.

Whether it be in the bleak and windswept spaces of Siberia as at Kuznets or Kuzbas, where are ore mines and steel works and power plants and gas factories, or in the Don Basin in South Russia, where are coal, salt, iron, manganese and lead mines, and so men working underground in many ways; or in Odessa, or Leningrad or Kharkoff or Kiev or Novgorod or Baku or Tashkent and Samarkand (in the very heart of Asia), or wherever there are rubber, steel, clothing, silk, glass, bread, tobacco, furniture, machinery or what not to be made, and so factories to make them, you will find this earnest thought operative and beginning to show in the very structure and technique of everything that chances to be done.

### CONDITIONS AT MINES

For instance, if it chances to be a coal or a salt mine in Siberia, or the Don Basin (and God, how bleak and windswept are both), at the mouth of the mine and in connection with the internal operating processes of the mine are all of those things which make for the safety and comfort of the workers: nonexplosive lamps, a system of enforced ventilation underground, electric lights along the paths of the workers, electric lights at the very bank-head, where the worker stands not with an old-time pick, but a modern electric drill, a gas mask at his elbow, and at the back of him a traveling coal pan or basket into which as fast as he loosens the coal he scrapes it, and in which it automatically travels along the walling coal car at the end of the particular spur which happens to be the subject of the drill at the time, the particular new spur which the current drilling is making.

And he is clothed in special clothing furnished by the government. At the mine head to which he may return at the end of six hours, his day's work done, is not only a rest room but a Russian hot bath into which he can go and make himself clean. For the miner at the bank-head, the actual driller works only six hours (from mine-head to mine-head) because his work, as the government sees it, is especially dangerous. Other men connected with the mine, working in the lateral shafts or outside, work eight hours (at present) as their work is not so dangerous.

The mine-head worker makes 250 roubles a month, twenty-five more than Mr. Stalin or Mr. Lunacharsky, the head of the entire educational program of Russia, as opposed to say from 100 to 150 roubles for these others connected with the easier work. Also all mine-workers—but more especially the bank-head man, since his is the greatest risk—are heavily insured against danger.

### HOUSING THE WORKERS

In addition, outside, all miners, as well as all active industrial workers at this mine, have built (or there are now being built) for them as fast as present industrial results will permit, little two, or three or four-room cottages, with a bath, a veranda and a little garden. And these they can always rent for six to ten per cent of their wages, no more. Next, for their local recreation and entertainment, they have also had built (and how many have I not seen) really handsome club buildings, the local club buildings of their union or craft, which as a rule are much finer than many of the better golf or country clubs in America. Each of these contains a swimming pool, a bowling alley, a billiard room, a theater, a reading room, library, gymnasium and restaurant. And for men and women, not men alone.

In summer these workers, where they are, in mines or factories or on railroads or in offices, have a month's vacation with pay at some resort of their own union, on the Black Sea or the Caspian or the Volga, or where you will. And at the mines, or near their factory or office, they have a hospital, a sanatorium, a library and all the educational facilities necessary for their wives and children.

### SYSTEM UNIVERSAL

I have seen these things, been in the mines, baths, clubs, hospitals, sanatoriums, resorts and cottages, (nearly all new) and I know what I am talking about. And taken as a whole, and apart from some other phases of the Communist theory, certainly they make something of which I can and do approve.

Relatively this type of thing extends to every factory, office and form of employment in Russia. Railroad workers, shipping workers and clerks, lumber workers and their assistants, the drivers of trucks, the carriers of bundles in Tashkent or Baku, the workers in oil fields and fish canneries of Baku or Batoum or of the Black or Caspian or Arctic seas.

For all of these things come under the head of making the necessary work of man agreeable, doing justice to the worker. And to that extent, and especially where it can be proved to be economically possible, which the Russians say it can, I approve. But whether as much can be done for the peasants in Russia, of whom there are 120,000,000, remains to be seen. For their problem is very different and it is not yet solved and may not be, although I am not sure. But that question is too long and too complicated to be entered upon just here. It can best be done separately.

### EDUCATION IN RUSSIA

Another thing I heartily approve of is the Russian system of education, only apart from that phase of it which seeks to eliminate from the human brain or chemistry all personal self-interest, which now animates and activates it. I do not think that can be done. And even if it could be I question its desirability.

But the educational approach to

## JURY'S OTHER HALF BALKS

Judge Discharges Persistent Talesmen When Wives And Husbands Plead

KENOSHA (Wis.) March 18. (AP)—Besieged with pleas of husbands and wives, Circuit Court Judge Belden today discharged the most persistent jury known in the history of Wisconsin courts. The jury, composed of six men and six women, had deliberated for sixty-eight hours on a murder case verdict.

Six times Judge Belden offered to discharge the jury when it reported it had not reached a verdict in the case of Frank Dichlars, charged with killing Luigi Del Conte. But each offer was refused by the jury, which was confident it could agree.

All the women on the jury are mothers.

The jurors said they were evenly divided.

\*\*\*\*\*  
cial or social plotting in connection with love or sensuality, because in Russia there is to be made out of it. Not a thing. Stick to your job. Find some woman or girl to be happy with. If you can't, that's your fault. And improve your mental and social position. There is no other way. And as I view it now, I am the only sane treatment of the sex question I have ever seen.

## CHANGES IN PRAYERBOOK ANNOUNCED

English Church Acts to Remove Objections From Evangelical Elements

LONDON, March 18. (AP)—The latest modifications in the revised book of common prayer which the House of Bishops of the Church of England have prepared for submission ultimately to Parliament were made public tonight. They first must be passed by the joint convocation of the Provinces of Canterbury and York and by the full church assembly before they can go before the national legislature.

The new proposals are designed to remove objections by the evangelical elements of the church and thus better the chances of obtaining Parliamentary endorsement. The changes are devoted mainly to removing misunderstandings concerning the revised book's provisions for the reservation of the sacrament. The bishops have drawn up a rubric which asserts that the reservation can be made only for the use of the sick and with their consent and after the elements have been consecrated.

There also is a declaration that fasting before communion belongs to the sphere of spiritual discipline rather than to that of doctrine. "The purpose of this," says the official announcement of changes, "is to give the practice of fasting its due place as an ancient and laudable custom of the church, but to guard against its being made oppressive to Christian conscience by being required as a necessary condition of celebrating or receiving communion."

## Intrepid Woman in World Auto Tour at Peking

PEKING (China) March 18. (AP)—Miss Claire Nore Stinnes, eldest daughter of the late Hugo Stinnes, German steel king, drove her motor car into this city yesterday, thus completing the Asiatic lap of her tour around the world.

Miss Stinnes reached Irkutsk, Siberia, late in November but she was held there two months waiting for ice on Lake Baikal. She says the hazardous twenty-five mile ride across the lake was the most exciting stage of her journey, although she also experienced thrills in avoiding robber bands in Mongolia.

Miss Stinnes plans to remain here for a week, and then proceed through Korea. She will ferry to Japan, that country, and then take a ship for America.

When her tour started from Frankfurt, Germany, on May 25, 1927, she had two cars and her party included a chauffeur and a camera man. But her German companions quit the tour before they reached Irkutsk.

perverse enrollment of Stanford men and women over the country. Leonard W. Cutler, '06, was named chairman.

Hoover is a graduate of the Stanford class of '05.

### HOOPER SUPPORTERS ELECTED IN MISSOURI

JOPLIN (Mo.) March 18. (AP)—Two supporters of the Presidential candidacy of Herbert Hoover were elected here yesterday as delegates to the Republican National Convention from the Fifteenth Missouri Congressional District.

### FOUR FIRE-FIGHTERS HURT IN PALO ALTO

PALO ALTO, March 18. (AP)—Four fire-fighters were slightly injured and damaged of about \$10,000 was caused when fire this afternoon swept through stores and offices on University avenue. The fire is believed to have started in a recently vacated photograph studio. Those injured were Harry Bowen, burns on hands and arms; Charles McCutcheon, sprained thumb; Ed C. Thois, Palo Alto City Councilman, burned neck; and L. C. Legoulon, facial burns.

## FIGHT OPENS ON TROPIC MALADY

Guggenheim Finances Attack on Sleeping Sickness

Wisconsin Professor Will Leave for Congo

Fellowship Awards Include Southland Pair

(Continued from First Page)

ready notable in their attainments as writers and scientists.

One of that group is Paul Eliot Green, assistant professor of philology at the University of North Carolina, whose play, "In Abraham's Bosom," received the Pulitzer Prize in 1927. Mr. Green, who is 34 years of age, has been awarded a Guggenheim fellowship with the aim of "studying at first hand the theater and drama of Continental Europe for the purpose of gaining technical training in creative dramatic work."

Three of the who receive appointments to fellowships for the coming year are negroes, one in the field of music and two as writers. One is C. J. Ballou, of New York, who has been reappointed, will continue his research into the musical conceptions of the African peoples, with his work chiefly in West Africa and the Congo.

The other negroes, both of whom also are residents of New York, are Countess Cullen, 25-year-old poet, whose work already has received recognition, and Eric Derwent Waldron, a free-lance writer. Mr. Cullen will go to Paris to complete a group of narrative poems and the libretto for an opera. Mr. Waldron, who is 30 years of age, will travel and study in the West Indies for the purpose of obtaining material for a series of novels and short stories depicting life there.

In the field of astronomy, William Jacob Luyten, who is an assistant professor of astronomy at Harvard University, will undertake, with the aid of the Guggenheim Foundation, to photograph the southern sky with the Bruce telescope of the Harvard Observatory at Masefield, South Africa, with a view to comparing these plates with similar plates taken between 1884 and 1905. His object will be to obtain information concerning the numbers, positions and intrinsic brightness of the stars in the neighborhood of the sun.

### STUDY OF EARTHQUAKES

Other interesting projects announced in the scientific field include the expedition of Emmet F. Dunn, assistant professor of zoology at Smith College, to Mexico and Costa Rica to study Central American reptiles and amphibians, and of Perry Byerly of the University of California, who will study mathematical geophysics at Cambridge. Dunn has a view to applying data already obtained in his study of American earthquakes to the knowledge of the subject.

In music, one of the projects is that of Quinto Magagnoli, flutist of the New York Symphony Orchestra, whose compositions already have received favorable attention in his country. Mr. Magagnoli will go to France to compose an epic symphony on the life and era of Napoleon I and also to work on an opera based on Bret Harie's "The Bellringer of Angels."

Among the other projects in various parts of the world will be studies of Italian architecture, of the economic readjustment in Germany since the World War, of the primitive peoples of Sumatra and adjacent western islands, of the chemical sense of insects, research in the subject of the Norwegian immigration to the United States, the historical and legal literature of ancient Ireland, archeological investigations in Northern Mesopotamia, the European travel writings of James Fenimore Cooper, and many other subjects covering a wide field of the science and culture of the day.

### TWO FROM SOUTHLAND

Among other appointments are Roy James Kennedy, research associate in physics, California Institute of Technology, Pasadena, for research toward establishing a consistent theory of radiation, and Roy Harris, composer of music, Covina, Cal., for continuation of creative work in musical composition, abroad.

Other Californians on the list of fellowships are John Jose Hopfield, assistant professor of physics, University of California, and Edwin Meyer Loeb, lecturer in anthropology, University of California, and Lester Edwin Reukema, assistant professor of electrical engineering, University of California.

The committee of the foundation which judged the applicants and projects for study is composed of President Adlai Stevenson of Radcliffe College, President Frederic C. Ferry of Hamilton College, Dean Gustav Olin of the University of Minnesota, Prof. Charles H. Haskins of Harvard University and Dean Charles B. Lipman of the University of California.

The trustees of the foundation are Hon. Simon Guggenheim, Mrs. Simon Guggenheim, Francis H. Brownell, Carroll A. Wilson, Charles D. Hilles, Roger W. Straus and Charles Earl, all of New York City. The offices of the foundation are in the Pershing Square Building, New York City, in charge of Henry Allen Moe, secretary.

## 'Kidnaped' Pair on Adventures

SAN FRANCISCO, March 18. (AP)—Two young chaps whose quest for adventure caused their parents many anxious hours in the belief that they had been kidnaped were seen here today.

Jacqueline, 11 years of age, and John, 9, children of John V. Rounsell, president of a jewelry import-export company, were found at San Rafael, across the bay from San Francisco, by police shortly after midnight.

### DERBY SOLD OUT

LOUISVILLE, March 18.—Virtual all reservations for the 1928 Kentucky Derby have been sold and more stands will be built to hold what is likely to be the largest crowd in the history of the race, Matt J. Winn announces.

## DIRIGIBLE HELD SAFE AIRCRAFT

German Expert Points Out Advantages Over Plane

States Trans-Atlantic Line Would Be Profitable

Predicts Circling of Globe in 280 Hours

LEIPZIG, March 18. (AP)—The dirigible was extolled as safe, commercially, inexpensive and fit to ride out storms by Dr. Hugo Eckener in an address before the Leipzig Aeronautical Society. The audience included the consuls of the United States, Spain and Argentina.

Dr. Eckener said there was room for both the plane and the dirigible, but he asserted that the latter had the advantage because the larger. It was the better paying proposition.

### ADVISES SHORT MASTS

He criticized the tall masting used in America and advocated short masts costing about \$5000 each which would permit the bottom of the dirigible to rest on movable supports, something like the mast used by the United States Navy dirigible Los Angeles at Panama. With such equipment, he said, each Zeppelin flight between Southern Spain and Argentina would cost \$50,000, including only \$750 for landing and starting expenses.

If regular weekly flights were made the entire cost of the ship could be written off in two years, he said.

Horizontal storms were powerless against a dirigible and that only vertical air blasts were dangerous, he contended. These vertical blasts could be overcome by driving through them at full speed and asserted that the Shenandoah disaster occurred because that dirigible flew into a severe thunderstorm at half speed. He said the reduction in the number of gas and air valves on the Shenandoah was a contributing factor, asserting that the outside air pressure of the blasts which forced the speed alternately up and down could not be adequately counterbalanced by valving out gas.

### WILL USE NEW GAS

Dr. Eckener revealed that a new gas would be used in the forthcoming trials of the LZ-127. He said it would be a kind of volatized benzene with a specific gravity of 1.05. He predicted that this would permit static equilibrium to be maintained and would answer the question as to the handling of dirigibles in vertical air currents.

He also proposed that as soon as tanking stations are established, a dirigible could make a flight of 18,000 miles around the world in 20 hours' flying time.

He explained that the project of placing the LZ-127 in regular service between Spain and Argentina had been postponed because the royal Spanish decree had made Spain's subsidies conditional upon similar guarantees by Argentina and that some kind of a hitch had arisen at Buenos Aires.

## Grubstake Nets Hundredfold in Return Profits

BUTTE (Mont.) March 18. (Exclusive)—A case of "bread upon the water" was brought to light by a former Butte resident who recently received \$22,000 in return for a \$200 "grubstake."

In 1914 Edward Owens, former Butte druggist, and Gene Cullin, once shift-boss in a Butte mine, helped outfit Zar and Emmet Crittenden, brothers, who had just graduated from the Montana school of mines, for a prospecting venture in Canada.

The Crittendens located claims near Regina in Saskatchewan in 1915. New York capitalists headed by Harry Payne Whitney purchased property adjoining theirs, paying the Mining Corporation of Canada \$254,000 for an 85 per cent interest. Whitney's investment caused a demand for the Crittendens brothers' claims, and they finally sold for \$60,000. Out of this sum \$22,000 was remitted to Mr. Owens in return for his \$200 loan as a grubstake. Mr. Owens stated that had his young partners had the capital to develop their holdings further, they might have received \$1,000,000 as the purchase price.

## Vienna Savant Discloses Cure for Pneumonia

VIENNA, March 18. (AP)—Dr. Hans Siegenfeld of the great Wilhelmstrasse Hospital of Vienna, astonished the Austrian Medical Association last night by telling them that he has succeeded in entirely frustrating death from pneumonia of the type which often follows lung operations under anesthetics. Hitherto such cases have had a fatality record of about 33 per cent.

Dr. Siegenfeld said he uses an intramuscular injection of twenty cubic centimeters of the patient's own blood. He said this injection can be given only after pneumonia has supervened, that it is not possible before operating and is efficacious only when the patient's lungs previously were sound. He said the highest fever and congestion invariably disappear within a few days under such conditions.

### MYRRA WINS MARATHON

SAN FRANCISCO, March 18. (AP)—Andy Myrra of the Olympic Club, San Francisco, today won the twenty-eight-mile 38th Pacific Coast Olympic Games marathon running tryout. Time, 2h. 58m. Harry Chausa, Indian from Los Angeles, was second.

### SEAL RACES TRIUMPH

MONTEREY, March 18. (AP)—The San Francisco Seal babes of the Pacific Coast League triumphed 9 to 1 over the San Francisco Y.M.I. team in the history of the league, today.

# DANDRUFF

Not until the last vestige of dandruff is gone, can you be considered a fastidious person, acceptable socially

## Checks dandruff . . . soothes the scalp

Don't put up with a humiliating case of dandruff, and the itching burning sensation of the scalp that usually accompanies it.

At the first sign of dandruff, douse Listerine on the hair full strength and massage the scalp thoroughly. Keep this treatment up systematically for several days.

You will be delighted to find your dandruff disappearing

rapidly. And you will welcome that cool refreshing feeling that Listerine imparts to the scalp. For those few whose hair does not contain the normal amount of oil, the use of a little olive or castor oil after shampoo may prove an advantage.

It is a curious fact that in many cases this simple pleasant treatment has succeeded after complicated and costly ones had failed. Lambert Pharmacal Co., St. Louis, Mo., U. S. A.

DEEP ZONE  
Sought At  
TAFT TEST

Chancellor-Canfield Rigs Up  
for Start of Drilling to  
Lower Levels

TAFT, March 18. (Exclusive)—  
The first new development as a  
result of the recent rich strike in  
the deep oil zone of the Midway  
field by the Republic Petroleum  
company occurred last week when  
the Chancellor-Canfield Midway Oil  
Company began construction of a  
rig over its old No. 29 well on Sec.  
6, 23-29, for the purpose of deep-  
ening the hole. Other companies in  
the field are reported to be plan-  
ning to deepen old wells soon.

Contrary to general expectations  
in oil circles, the Republic's deep-  
ened well, No. 25, on Sec. 4, com-  
pleted at 2700 feet two weeks ago  
with an initial production of 1100  
barrels of oil a day, not only is  
holding up but is increasing its out-  
put. The well is pumping between  
1200 and 1500 barrels of oil a day  
into a sump.

The North American Consoli-  
dated Oil Company now is building  
for a production test in its No. 7  
well on Sec. 32, 31-34, which was  
drilled to 4000 feet with six and  
one-quarter-inch pipe set at 4000  
feet.

Honolulu Consolidated Oil Com-  
pany is drilling ahead in its No. 30  
well on Sec. 6, 32-34, in shale at  
about 900 feet. Standard Oil Com-  
pany is proceeding with drilling or  
redrilling operations on five of its  
wells in Secs. 19, 29 and 33, 31-34.

The Union Oil Company is drill-  
ing ahead at about 1500 feet in its  
McClure No. 14 well, and the  
Western Producing Company has  
materialized on the ground for its No.  
12 well on Sec. 31, 31-32.

Class from Colorado's  
School of Mines Will  
Make Special Study Here

Los Angeles has been selected as  
headquarters for a class of Colo-  
rado School of Mines students in  
petroleum engineering which will  
make an inspection trip to Cali-  
fornia oil fields.

After spending three days in San  
Francisco attending the convention  
of the American Association of Pe-  
troleum Geologists, the party will  
leave for Los Angeles by boat to in-  
spect oil properties in this vicin-  
ity.

The petroleum refining trip start-  
ed yesterday at San Francisco. A  
few hours stop at Salt Lake City is  
scheduled.

San Francisco is the immediate  
destination of the party. The stu-  
dents will attend the convention of  
the American Association of Pe-  
troleum Geologists which will be in  
session there this week.

Leaving San Francisco on Thurs-  
day, the 22nd inst., the party will  
come direct to Los Angeles to in-  
spect the various producing fields in  
this vicinity. The refineries will be given  
special attention.

The schedule calls for six days in  
Los Angeles. On Wednesday, the  
26th inst., the students will leave  
for Golden.

HISTORY OF  
PETROLEUM  
IN PICTURE

Department of Geology at  
University Arranges for  
Interesting Film Program

"The Story of Petroleum" is to  
be told by motion pictures Wednes-  
day evening at the University of  
Southern California. Prof. Allen  
E. Sedgwick, head of the depart-  
ment of geology, will present a film  
of the petroleum industry made un-  
der the supervision of the United  
States Bureau of Mines, and  
financed by the American Petroleum  
Institute.

The film will be shown at 7:30  
p.m. in the law school auditorium,  
3600 University avenue. The public  
is invited.

The stages and phases of  
the oil industry from the geologist  
in the field to the finished product  
in the refinery, the various scenes  
were taken throughout the United  
States and depict as completely as  
possible all conditions of prospect-  
ing, drilling, production, transporta-  
tion, refining and marketing of pe-  
troleum.

Each of these operations is il-  
lustrated in an interesting and in-  
structive manner by animal di-  
agrams which show the various steps  
in locating, recovering and refining  
petroleum.

The government is offering this  
motion picture to acquaint the gen-  
eral public with the details of the  
petroleum industry, in order that  
they may more fully understand  
and appreciate the problems and  
difficulties under which those active  
in the field sometimes work.

## DEEP ZONE Sought At TAFT TEST

Chancellor-Canfield Rigs Up  
for Start of Drilling to  
Lower Levels

TAFT, March 18. (Exclusive)—  
The first new development as a  
result of the recent rich strike in  
the deep oil zone of the Midway  
field by the Republic Petroleum  
company occurred last week when  
the Chancellor-Canfield Midway Oil  
Company began construction of a  
rig over its old No. 29 well on Sec.  
6, 23-29, for the purpose of deep-  
ening the hole. Other companies in  
the field are reported to be plan-  
ning to deepen old wells soon.

Contrary to general expectations  
in oil circles, the Republic's deep-  
ened well, No. 25, on Sec. 4, com-  
pleted at 2700 feet two weeks ago  
with an initial production of 1100  
barrels of oil a day, not only is  
holding up but is increasing its out-  
put. The well is pumping between  
1200 and 1500 barrels of oil a day  
into a sump.

The North American Consoli-  
dated Oil Company now is building  
for a production test in its No. 7  
well on Sec. 32, 31-34, which was  
drilled to 4000 feet with six and  
one-quarter-inch pipe set at 4000  
feet.

Honolulu Consolidated Oil Com-  
pany is drilling ahead in its No. 30  
well on Sec. 6, 32-34, in shale at  
about 900 feet. Standard Oil Com-  
pany is proceeding with drilling or  
redrilling operations on five of its  
wells in Secs. 19, 29 and 33, 31-34.

The Union Oil Company is drill-  
ing ahead at about 1500 feet in its  
McClure No. 14 well, and the  
Western Producing Company has  
materialized on the ground for its No.  
12 well on Sec. 31, 31-32.

## LOCAL OIL INDUSTRY ATTRACTS

Class from Colorado's  
School of Mines Will  
Make Special Study Here

Los Angeles has been selected as  
headquarters for a class of Colo-  
rado School of Mines students in  
petroleum engineering which will  
make an inspection trip to Cali-  
fornia oil fields.

After spending three days in San  
Francisco attending the convention  
of the American Association of Pe-  
troleum Geologists, the party will  
leave for Los Angeles by boat to in-  
spect oil properties in this vicin-  
ity.

The petroleum refining trip start-  
ed yesterday at San Francisco. A  
few hours stop at Salt Lake City is  
scheduled.

San Francisco is the immediate  
destination of the party. The stu-  
dents will attend the convention of  
the American Association of Pe-  
troleum Geologists which will be in  
session there this week.

Leaving San Francisco on Thurs-  
day, the 22nd inst., the party will  
come direct to Los Angeles to in-  
spect the various producing fields in  
this vicinity. The refineries will be given  
special attention.

The schedule calls for six days in  
Los Angeles. On Wednesday, the  
26th inst., the students will leave  
for Golden.

## HISTORY OF PETROLEUM IN PICTURE

Department of Geology at  
University Arranges for  
Interesting Film Program

"The Story of Petroleum" is to  
be told by motion pictures Wednes-  
day evening at the University of  
Southern California. Prof. Allen  
E. Sedgwick, head of the depart-  
ment of geology, will present a film  
of the petroleum industry made un-  
der the supervision of the United  
States Bureau of Mines, and  
financed by the American Petroleum  
Institute.

The film will be shown at 7:30  
p.m. in the law school auditorium,  
3600 University avenue. The public  
is invited.

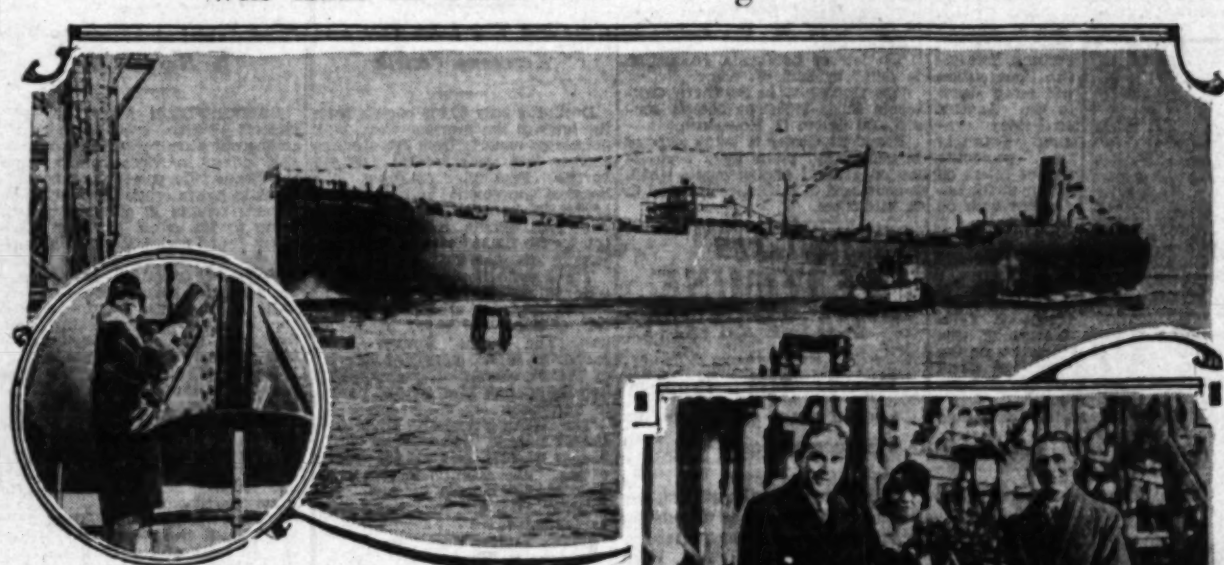

The stages and phases of  
the oil industry from the geologist  
in the field to the finished product  
in the refinery, the various scenes  
were taken throughout the United  
States and depict as completely as  
possible all conditions of prospect-  
ing, drilling, production, transporta-  
tion, refining and marketing of pe-  
troleum.

Each of these operations is il-  
lustrated in an interesting and in-  
structive manner by animal di-  
agrams which show the various steps  
in locating, recovering and refining  
petroleum.

The government is offering this  
motion picture to acquaint the gen-  
eral public with the details of the  
petroleum industry, in order that  
they may more fully understand  
and appreciate the problems and  
difficulties under which those active  
in the field sometimes work.

## GIANT TANKER COMES HERE TO TAKE UP DUTIES

Will Haul Its First Load Through Panama Canal

One of Fastest Tankers Afloat  
Above, new Calpet petroleum carrier. At left, inset of Mary Ellen O'Neill,  
in honor of whom the vessel was christened. Below, L. B. O'Neill,  
Mary Ellen O'Neill, and John T. O'Neill, who represented their father,  
P. H. O'Neill, a director of the California Petroleum Corporation, at the  
recent launching of the vessel in the shipyards at Chester, Pa.

The California Petroleum Cor-  
poration held a reception yesterday  
at Mormon Island, aboard its new  
tanker, the Mary Ellen O'Neill,  
named in honor of Mary Ellen  
O'Neill, who is a daughter of P.  
H. O'Neill, one of the directors of  
the corporation.

This vessel was built at a cost  
in excess of \$2,000,000 in the plant  
of the Sun Shipbuilding and Dry-  
dock Company at Chester, Pa. Fol-  
lowing the reception at its home  
port it will begin cleaning tanks  
today, and on Saturday it will be  
loaded out for Norfolk and Balti-  
more with a cargo of Calpet gaso-  
line.

Visitors yesterday had an oppor-  
tunity to see the speediest tanker  
afloat, able to do 12.5 knots, when  
she is broken in, according to  
Robert Hais, vice-president of the  
Sun yards, who visited her shortly  
after her arrival. They also saw the  
latest in propulsion, and possibly  
the most in any tanker, two 5500-  
horsepower Doxford piston-driven  
full Diesel engines.

The tanker measures 530 feet over  
all, with a beam of seventy feet,  
and a deadweight of 17,000 tons,  
and from her bridge a view is at-  
tained like that afforded from a  
sky-scaper. She carries a wealth  
of auxiliaries, electrical navigation  
devices, and surplus accommoda-  
tions, in which several observing  
engineers and guests traveled en  
route here.

She carries a crew of forty-one  
men headed by Capt. R. B. Arm-  
strong, an East Coast skipper who  
began as a boy on windjammer  
twenty-five years ago, and is now  
chiefly based in command of Ship-  
ping Board vessels since 1919. J. S.  
Langer, another eastern man, is  
chief engineer.

## CASITAS PASS MAY PRODUCE

Operating Company Picks Up Promising Saturated  
Sand in Remote Wildcat Project

Reports from Casitas Pass, where the Ventura and Santa Barbara  
county lines meet on Rincon Creek, indicate the possibility that Ventura  
county may, within a few days, have a new light gravity oil field.

Scott Petroleum Properties, Inc., a  
drilling a wildcat well less than  
200 feet from the creek in the  
bottom of the pass, reported yes-  
terday that thirty feet of saturated  
oil sand have been cored in a body  
at the bottom of the hole, which is  
2845 feet deep.

The company was running eight  
and three-fifths inch casing Sat-  
urday, and is now preparing to  
cement off in the oil sand at 3845  
feet. The well may be in shape  
to drill out and test late in the  
week, although no haste will be  
made in the matter.

J. M. Queen, vice-president of  
the organization, states that the  
outlook is good for production, and  
that the company does not intend  
to go deeper in the first hole,  
because of the danger of hitting  
bottom water. Every effort will  
be made to bring the well in from  
its present depth, and if it makes  
a producer the company will drill  
others, taking a little more with  
each until the exact thickness of  
the oil zone has been plumbed.

The company has under lease  
300 acres of the 700-acre Bates  
estate, which lies in Casitas Pass  
on both sides of Rincon Creek. The  
drillers of the wildcat well report  
that just before they picked up the  
sand they had to use a diamond  
drill to cut through a cap of shell  
rock sixteen feet thick, but that  
after this had been penetrated the  
drill went down for thirty feet  
without the slightest effort.

W. J. Scott is president of the  
organization, and J. M. Queen is vice-  
president, and A. W. Posey is in  
charge of operations.

## Artesian Well Developed for Seacliffe Field

To supply the Chancellor-Canfield  
Midway Oil Company with water in  
the Seacliffe field, Charles Fer-  
aud of Ventura has just brought in  
a 19,000-barrel water well in  
Willow Canyon.

The well is 500 feet deep. It is  
reported to be the largest ever com-  
pleted between Ventura and the  
Santa Barbara county line.

In the same field the Honolulu  
Consolidated Oil Company made a  
production test in its No. 79 well on  
Sec. 18, 28-29, and the hole did  
drill from 450 to 500 barrels daily.

## Comparison of California's Daily Oil Production

| District         | Week ending<br>Mar. 17 | No. Wells | Average for Week | Week ending<br>Mar. 10 | No. Wells | Week ending<br>Mar. 3 | No. Wells |
|------------------|------------------------|-----------|------------------|------------------------|-----------|-----------------------|-----------|
| Long Beach       | 121,000                | 634       | 120,000          | 627                    | 92,000    | 717                   | 112,000   |
| Midway-Sunset    | 79,500                 | 2,841     | 79,000           | 2,850                  | 88,500    | 3,013                 | 92,000    |
| Huntington Beach | 58,000                 | 580       | 58,000           | 578                    | 75,000    | 819                   | 45,000    |
| Ventura Avenue   | 46,000                 | 109       | 52,000           | 112                    | 50,500    | 87                    | 28,500    |
| Santa Fe Springs | 39,500                 | 137       | 40,000           | 136                    | 32,000    | 20                    | 40,000    |

| Total for State  | 607,500                | 11,290    | 614,000          | 11,276                 | 643,500   | 11,309                | 608,500   |

## VERDE CENTRAL PLANNING MILL

Proposal to be Voted Upon  
at Annual Meeting

Adequate Water Supply Held  
Main Question

Large Ore Dump and Reserve  
Already Created

JEROME (Ariz.) March 18. (Ex-  
clusive)—There is local report that  
the Verde Central directorate is  
considering plans for installation of  
a mill, this for presentation at the  
annual meeting, to be held here  
next month.

Possibly the main question would  
affect the water supply, though some  
water is being pumped from the  
mine and an unlimited quantity  
could be had in the Verde Valley.  
Enormous ore reserves running from  
2 to 10 per cent copper, have been  
discovered in the mine, down to 1900  
feet in depth, and an immense  
dump has been created below the  
shaft heads by hoisting material  
taken out in the course of develop-  
ment.

This dump is much in evidence  
from the Prescott-Jerome highway,  
which passes over the property. The  
ore is ideal for concentration, most  
of it being clean chalcopryite in a  
matrix of soft Varasol schist. Thus  
far there is no trace of zinc or other  
refractory metal. In one vein is  
considerable quartz. In sections of  
the mine is much direct smelting  
ore.

Possibly reduction works are con-  
sidered in a recent decision of the  
directorate to offer 300,000 shares of  
treasury stock to the stockholders,  
with announcement that the  
company is considering the purchase  
of the Verde Central property, which  
will take its pro rata share of the  
mine. It also has been noted that  
the company in the last few months  
has been doing much work with  
diamond drills, outlining its ore  
for possible early extraction.

Just above the Verde Central  
property, work is being pushed on  
the Verde Grand property, under  
charge of George J. Cole, formerly  
with the W. A. Clark mines at  
Butte. The shaft has been re-  
equipped with modern hoisting and  
electric equipment is being installed.  
The lines of the Arizona Power  
Company pass the shaft.

## TEXAS OIL PRODUCTS IN OFFING

Entry on Local Field Due  
When Calpet Merger  
Details Worked Out

As soon as details concerning the  
merging of the California Petroleum  
Corporation with the Texas Cor-  
poration have been completed, the  
latter will begin marketing Texaco  
oil products in California, according  
to unofficial reports.

The Texas organization has 2300  
service stations of its own and will  
get 145 when it takes over Calpet.  
This will give it more service sta-  
tions than any other marketing  
company according to New York  
reports, and the singular thing  
about it is that the organization  
has distributing stations of its own  
in every State in the Union.

While no official statements are  
forthcoming, it is asserted that  
Texaco plans to continue to market  
Calpet products in California and  
adjacent territory, and it is possible  
that the Calpet organization will  
be in charge of operating the ser-  
vice stations in several other western  
States.

## Four Projects Begun During Week in Kern

BAKERSFIELD, March 18. (Ex-  
clusive)—Four new wells have been  
started in Kern county, two of  
them having been spudded in by the  
Associated Oil Company in the Kern  
River field on Section 23, 28-27.  
They are No. 6 and No. 44.

The Berry Oil Company has be-  
gun its Glide No. 1 well on Sec.  
23, 27-28 in the Poso Creek field,  
and the Franco-Western Oil Com-  
pany has spudded in its No. 9-20  
Sec. 8, 30-22 in the McKillick dis-  
trict.

Five tests for water shut-off were  
reported in the Kern River field  
as follows: Midland Oilfields Com-  
pany, Ltd. Nos. 2 and 3 on Sec.  
14, 28-27; Kern River Oilfields of  
California, Ltd. No. 5, Sec. 26, 28-27;  
Petroleum Securities Company No.  
6 on the Sull lease, Sec. 26, 28-27.  
The General has also just com-  
pleted a test of its No. 9 well on Sec.  
21, 27-28 in the Poso field.

## GOLD STRIKE STIRS INTEREST IN AREA

W. A. Tapscott of Inglewood, re-  
turning from Yuma county, Arizona,  
reports that recent gold discoveries  
six miles out of Parker are creating  
widespread interest in mining cir-  
cles. The strikes, he said, were  
made near the holdings of the Lion  
Hill Mining Company, whose new  
mill is being made for large-scale  
operations and early production.

## NEW FIND IN CINNABAR MINE

The Burrey Development Com-  
pany of Los Angeles, headed by E.  
L. Burrey, has acquired three cin-  
nabar claims seven miles northeast  
of Round Mountain, in Nevada, and  
arranged for vigorous developments.  
The group shows a two-foot ledge  
of cinnabar and promising di-  
posits. The company is operating  
quicksilver properties near Eureka  
and in Fish Lake Valley, and has  
become one of the largest producers  
of the metal in Nevada.

## TRAM LINE MAY TAP OIL FIELD

Electric Road to Panhandle  
of Texas Planned

Operator Group Reported as  
Project Backers

Route Would Cover Thickly  
Populated Area

WHEELER (Tex.) March 18. (Ex-  
clusive)—Construction of an elec-  
tric interurban railway between  
Wheeler and Childress, approxi-  
mately eighty miles, is planned by  
the group of large oil companies  
operating in the Panhandle dis-  
trict.

Electric power for the proposed  
line will be furnished by the West  
Texas Utilities Company which al-  
ready has a power transmission line  
along the entire route of the pro-  
posed railway.

Although it is intended that the  
electric railway shall handle passen-  
ger traffic, its chief purpose will be  
to give the oil fields of these com-  
panies an additional transportation  
outlet. The route will intersect the  
Fort Worth and Denver City at  
Childress.

It is explained that it will not  
be necessary to obtain a certificate  
of necessity and convenience from  
the Interstate Commerce Commis-  
sion for the construction of the  
electric interurban line. The road will  
pass through Shamrock and Wel-  
lington, and will serve other small  
towns. It will traverse a territory  
which is thickly populated and in  
an advanced state of agricultural  
development.

## Order for Huge Texas Pipe Line Project Placed

McCAMEY (Tex.) March 18. (Ex-  
clusive)—An order for pipe and  
other material for the construction  
of a 200-mile ten-inch pipe line  
from the Yates pool in Pecos county  
to El Paso has been placed by  
the Standard Oil Company of Cal-  
ifornia. The pipe-line project will  
cost approximately \$3,500,000, includ-  
ing pump stations.

The particular purpose of the  
proposed pipe line is to serve the  
10,000-barrel refinery which Pease  
is constructing here. The first unit  
of the refinery will cost \$750,000.  
Its capacity will not require all  
of the oil that will come through  
the pipe line. This excess will be  
shipped by rail over the Southern  
Pacific to other refineries of the  
Standard Oil Company of Cali-  
fornia. The pipe-line project will  
cost approximately \$3,500,000, includ-  
ing pump stations.

## SEACLIFF FIELD GETS NEW HOPE

Successful Deep Completion Changes Outlook

Water Trouble Appears to be Solved in Project

Revival of Activity Expected to Follow as Result

The entire aspect of the Seaclyff field, west of Ventura, may be changed as a result of the completion on Saturday by the Miley Oil Company of its Miley No. 3 well on the beach, with initial production estimated as being between 1000 and 1500 barrels a day. The well was still making considerable drilling mud and water yesterday, but it was steadily clearing up, and it was believed that a successful water shut-off had been obtained. The oil tests about 28.3 deg. gravity, according to reports.

The Miley No. 3 is the first real test of the 3100-foot zone that has been made in the Seaclyff field and of the hole, and it is probable that it will be a success. The test began Friday afternoon when the plug was drilled out. Shortly afterward the well began flowing between the drill pipe and the casing. The tools were pulled out of the hole, and tubing was run in to wash out the mud. By Saturday morning the well was flowing steadily, estimates ranging between 1000 and 1500 barrels. Bottom of the hole is at 3133 feet. The tubing pressure is 290 pounds, and the hole has taken only twenty feet of the oil sand.

Other projects in the Seaclyff district have been awaiting the result of the Miley test, and it is probable that within a few days, if this well holds up to its initial promise, there will be a general deepening of holes in the field. The hope is to get production at upper levels. There have been only three previous completions at Seaclyff, two of these being Pan-American wells, and the third a Chanoir-Ganfield Miley Oil Company well, the total output of the three being only about 500 barrels per day from sands between 2800 and 2750 feet. Practically every other attempt to produce from the upper sands has been prevented by water trouble. The next completion in the third oil zone of the field is expected to be the Pan-American Petroleum Company's Hobson-Stratton No. 2, which is now being drilled and is reported to have been picked up at about 3100 feet, and the well's procedure during the past few days has considerably excited the operators at Seaclyff.

## OIL GEOLOGISTS TO GATHER

Annual Convention of National Association to Open in Bay City and Close Here This Week

The American Association of Petroleum Geologists, of which G. G. Gester, chief geologist for the Standard Oil Company of California, is president, will hold its thirtieth annual convention in California this week, dividing the meeting between San Francisco and Los Angeles. Sessions in San Francisco will be at the Hotel de Ville, Tuesday, Wednesday, Thursday and Friday. Sessions in Los Angeles will be at the Hotel de Ville, Saturday and Sunday.

G. G. Gester

The convention will move down to Los Angeles on Friday, when the meeting will be held at the Hotel de Ville. The convention will be held at the Hotel de Ville, Los Angeles, Saturday and Sunday.

The convention will be held at the Hotel de Ville, Los Angeles, Saturday and Sunday.

## SLIGHT DECLINE IN OIL EXPORTS

Port's Bulk Total for Week 1,865,217 Barrels

Fuel Movements Heaviest and Crude Second

Gasoline Third on List and Kerosene Fourth

Declining only 50,000 barrels from the level of the previous week, bulk exports from Los Angeles Harbor last week totaled 1,865,217 barrels. Fuel oil constituted the heaviest movement, with an outgo of 1,427,777 barrels, crude being second with 349,794 barrels, and kerosene third with 200,231 barrels.

The Pacific Coast domestic trade total 681,540 barrels, consisting of 282,655 barrels of crude, 303,028 barrels of fuel, and 212,257 barrels of gas. The Pacific foreign trade called for 636,862 barrels, consisting of 144,584 barrels of crude, 186,773 barrels of fuel and 305,505 barrels of kerosene.

The Atlantic domestic trade total 322,850 barrels, composed of 79,029 barrels of crude and 243,821 barrels of fuel. The Atlantic foreign trade total 174,056 barrels of fuel. The shipments for the week were listed as follows:

**PACIFIC DOMESTIC**  
Ketchikan to Oakland with 53,928 barrels of crude for Standard Oil Company.  
Seattle to Richmond with 78,000 barrels of crude for Standard Oil Company.  
Richmond to Richmond with 50,000 barrels of crude for Standard Oil Company.  
Seattle to Seattle with 51,500 barrels of gas for Standard Oil Company.  
Seattle to Seattle with 51,500 barrels of gas for Standard Oil Company.  
Seattle to Seattle with 51,500 barrels of gas for Standard Oil Company.

## PLANS FOR CUT IN OUTPUT STIR

State Curtailment Program Interests Kern

Speculation Rife in Area on Probable Effect

River Front and Midway May be Hardest Hit

BAKERSFIELD, March 18. (Exclusive)—With speculation rife among operators regarding the probable effect in Kern county from the State-wide program of curtailment in heavy crude oil production, general reports in circulation here being to the effect that the Kern River front and Midway fields will be the hardest hit locally, active development operations are proceeding on more than a score of new wells in the Kern front area and the schedule for completing new producers evidently is being carried forward without a pause.

The Pacific Coast domestic trade total 681,540 barrels, consisting of 282,655 barrels of crude, 303,028 barrels of fuel, and 212,257 barrels of gas. The Pacific foreign trade called for 636,862 barrels, consisting of 144,584 barrels of crude, 186,773 barrels of fuel and 305,505 barrels of kerosene.

The Atlantic domestic trade total 322,850 barrels, composed of 79,029 barrels of crude and 243,821 barrels of fuel. The Atlantic foreign trade total 174,056 barrels of fuel. The shipments for the week were listed as follows:

## CONCEPT OF HEAVEN AND HELL SET FORTH

Service, Not Idleness, Bliss, Lake of Brimstone Discarded as Medieval Horror

The needs of our religion is to scrap the superstitious ideas of a golden heaven and a torture hell and to see the after-life in terms of the moral logic of the modern world. Dr. H. C. Culbertson in a sermon preached at Plymouth Congregational Church, Dr. Culbertson declared that he believed in hell but he modified considerably the description of the region of flames. Preaching on "Heaven and Hell," Dr. Culbertson spoke in part as follows:

**CONSCIENCE CALLED**

"Tortures of an Outraged Conscience" is the subject of a sermon preached yesterday by Dr. John Snape at Temple Baptist Church. Dr. Snape said in part:

"Conscience is the discriminating and judging faculty of the soul. To it all sensations and suggestions come to receive final assignment to their proper place. It utters its judgments with authority and, if its conclusions are avoided, it lays up against the door of the will the responsibility for failure.

"Conscience is a sheriff as well as a judge. It is either man's best counselor or his blackest nemesis. Of it no good man need be afraid, but all bad men start and tremble at its whispers. Conscience makes coward of all who are already knaves, but a good conscience never treats a good man like that. Conscience may be directed and educated, or impaired, imprisoned and defiled. The only way to obtain a good conscience is to keep a good heart."

## PILATE'S POLITICS

**DID NOT SAVE HIM**

"An Unjust Decision" is the theme of a sermon preached yesterday by Rev. Alden L. Hill at Highland Park Christian Church. Mr. Hill said, in part:

"Pilate's power of decision over life and death was supreme. His sense of justice caused him to find no fault in Christ, but the clamoring of his subjects for the death of the prisoner made him hesitate to free Him. As a diplomatic politician, Pilate sought every means available to avoid rendering a decision either for or against Christ. Though he tried to wash his hands of the whole matter, he was finally forced to render his decision.

"So, with us today, we are either deciding for or against Christ in our individual lives. The Master has said, 'He that is not with me is against me.' It is neither fear nor favor cause us to crucify at the Son of God."

## JOSEPH AS MODEL FOR MODERN YOUTH

"Everyone finds himself in Egypt at some time during his life," said Rev. J. Whitcomb Brougher, Jr., in his sermon yesterday at First Baptist Church to Glendale.

"Joseph was sold into slavery by his brother and the Midianites carried him into Egypt," said Mr. Brougher. "There he found he had to live up to his ideals in Potiphar's home, tempted by the unfaithful wife of his master, Joseph had, where high ideals and honor were taught. 'As the twig is bent, so is the tree inclined.'"

"If crime is sweeping over our country today it is because young people are unable to withstand temptation. Home life of today does not build character, lay a foundation and prepare young people to withstand temptation as it should. When a young man reaches the age where father and mother no longer determine his every move, Egypt is reached."

## REINCARNATION AS THEORY OF LIVING

Swami Dhyanananda preached at Mt. Washington Educational Center yesterday on "Reincarnation." He said in part:

"What the theory of evolution is to the philosophy of life, Orthodoxy cannot satisfactorily explain the sorrows and miseries of the world, unless it blames God for them. Science cannot always explain the widely different tendencies and talents of the children of the same family, given the same training, unless it resorts to chance. But reincarnation attempts to explain both by saying that the actions and experiences of individual souls in present and previous births alone are responsible for all their joys and sorrows. As this theory is accepted by some of the intellectual giants like Plato, Pythagoras, Origen, the famous early Christian fathers, Swedenborg, Schopenhauer, Wordsworth, and also by almost half of the present inhabitants of the world, it is at least worthy of respect and merits investigation."

## SIMPLICITY MARKS ETERNAL TRUTHS

Rev. Albert Anderson, pastor of Central Lutheran Church of San Fernando Valley, preached yesterday on "The Simplicity of the Eternal Truths." He spoke in part as follows:

"When the church is honey-combed with doubt, the strength and floodtide of faith ebb away. There is no ambiguity about the fundamental teachings of Christianity. The eternal truths revealed by God in His Holy Word are so simple that even a child may understand. Simplicity is characteristic of all of God's doings. There is simplicity in the natural world. Ignorance of the laws of nature makes man suffer bodily hardship and want. Lack of proper understanding of spiritual laws is equally detrimental. God has given to Christendom the means of grace. Ignorance about spiritual principles on which depends the effectiveness of the means of grace causes spiritual hardship and want."

## WORLD-MINDEDNESS DANGER TO CHURCH

"Weak Hands and Feeble Knees" is the subject of a sermon preached yesterday by Dr. John M. Baxter at Rosewood M. E. Church. Dr. Baxter said in part:

"The great day of redemption is coming. The earth has been preparing for the time when every knee shall bow to the supreme ruler."

## EXTRA GIRL HAS SLIM CHANCE

Odds Against Success In Film Calculated at 10,000 to One

One extra girl in each 10,000 reaches stardom. These figures were cited yesterday by film executives to reveal what little chance there is on the silver screen for the thousands and thousands of girls throughout the country who crave a career in screenland.

Jesse L. Lasky, vice-president of Paramount; Cecil B. De Mille, Louis B. Mayer of Metro-Goldwyn and other film chiefs receive, on an average, 25,000 letters annually from ambitious girls who yearn to take places alongside Pola Negri, Joan Crawford, Jacqueline Logan, Bebe Daniels, Billie Dove, Gloria Swanson, Florence Vidor, Esther Ralston, Lina Basquette and others.

The film officials' advice to those asking how to attain fame in motion pictures, is "Don't."

thority and love of God. 'The King's highway is open now.' Has the church come up to the expectation of the King? Has the church shown any real signs of victory? Is the religion of Jesus Christ the hope-assuring force in our lives that it should be? A religion that is not based on righteousness and holiness is but a sham, a painted bauble, a floating, empty cloud. When the church loses her way and begins traveling with the world, she gets weak-handed, feeble-kneed and faint-hearted. God alone can save man from the power and penalty of sin."

## SUSPECT IN EXTORTION PLOT TAKEN

Youth Jailed on Charge of Demanding \$500 From El Monte Resident

Jesus Munos, 19 years of age, of El Monte, wanted \$500 with which to go in business. Scorning such prosaic sources of financing as banks and loan companies he decided to obtain the money by what police officials at El Monte declare are unlawful means.

He sent a letter to a fellow-citizen, Marcello Quiros, instructing him to place \$500 in \$20 bills in the mailbox of an El Monte resident named Thome, who lives about two miles from Quiros's home. The deposit was to be made at 9 o'clock Saturday night and Quiros was to arrive with the money alone.

The intended victim lived up to his agreement, but Constable Burck and his deputies, O'Bannon and Foell, were on the scene ahead of time, and the youth was arrested as he kept his appointment.

He confessed on Saturday night, according to El Monte police officials. The letter, police state, was signed with a threatening drawing of a black hand, although the writer failed to say what fate would overtake his victim if he failed to bring the money.

"It was just a fool idea," Munos is reported to have told his captors. That made it unanimous.

## Women With Car Load of Clothing Held

Mary Murphy, 24 years of age, and her sister Helen, 21, were taken into custody on a suspicion of burglary charge early yesterday by Traffic Officer McIntyre when a check of their automobile revealed a quantity of women's wearing apparel, including several expensive fur pieces. Two men who were with the young women at 539 California street at the time of their arrest were not held.

The women, whose address, according to police, is 1815 East Olive street, Huntington Park, gave their occupation as dancers. They denied stealing the clothing.

## Church Society Growth Shown

Reports indicating that the Holy Name Society of the Catholic diocese has gained nearly 20,000 new members within the last year were read at the annual convention which was held yesterday at the Junior Seminary, Third and Detroit streets. The society now has 210 branches in Southern California, according to Leo I. Parry, secretary-treasurer of the society.

More than 1100 delegates were present.

Mr. J. Cawley presided and Mr. Rev. Cantwell opened the session with prayer. The speakers were William T. Aggeler, Joseph Scott, P. H. O'Neill and others. P. H. O'Neill was re-elected as one of the other officers, with the addition of William T. Aggeler as one of four vice-presidents. The others are J. H. Dockweiler, Theodore N. Street of San Diego, and Judge Walter Desmond, and Leo I. Parry, secretary-treasurer.

## CRUELTY PLEA GETS WIFE HER FREEDOM

Freedom from Karl Rausch, whom she married in Pittsburgh, Pa., in 1905, has been granted to Mrs. Pauline Rausch by Superior Judge Stutzman.

She said that shortly after their arrival in Los Angeles he knocked her down with a blow of his fist. On another occasion, she said, he struck her with his fist and knocked her to the floor, where she lay unconscious for two hours.

In addition, she said, he refused to provide clothing for her and their two children, and every knee shall bow to the supreme ruler."

## BUSINESS OPPORTUNITIES

A dark, vertical, textured strip, possibly a book binding or a piece of fabric, with a series of white circular patterns along the right edge. The texture is grainy and uneven, with some lighter and darker areas. The circular patterns are evenly spaced and appear to be part of a larger design or binding.

# 12-PIRATE STORIES-12

*Each One Complete in Itself!*

by  
**ROBERT W. CHAMBERS**

*With Illustrations by NORMAN PRICE*

**FIGHTS** at sea that thrill you through and through! Grappled ships and grappling men! Exciting duels! Buckets of blood! Hair-raising deeds, such as terrible Black-Beard Teach, his head almost severed from his neck, holding his head on with one hand while he wields his deadly broad-sword with the other!

This and many other blood-chilling exploits in these 12 stories *actually happened*. Real deeds of real pirates—Black-Beard Teach, Captain Death, Calico Jack Rackham, Francis Sprigg, the brothers Horneygold, Mad Stede Bonnet, lovely Mary Read, Bonnie Anne and many others. They're back to life again in these colorful, enthralling

stories—treading the blood-drenched decks of their fearsome ships—plotting and scheming in the half-lighted tap-room of Tom Cocklyn's sinister inn—amazing you with their daring, their cruelty, their thrilling, glamorous adventures on sea and land. Every incident historically true and written in the language of the pirates themselves.

It was under the Rogue's Moon—full and silvery—that the pirates did these deeds and so it is under the general title of "THE ROGUE'S MOON" that Mr. Chambers has written this series of short stories—*each complete in itself*. They will appear, as follows, exclusively in **LIBERTY**:

- |                         |          |

SECOND HUNT EXTENDED

Guarding Estate to be Searched

Expresses Faith in Sinclair Securities Will be Found

Smith and Other Candidates Banded in Senate Debate

WASHINGTON, March 19. (AP)—The Senate today began its inquiry into the activities of the Liberty Bond profiteers.

Senator Nye, Republican of Oregon, chairman of the committee, said he did not believe any of the Continental bonds would be found in the estate, but

there would be a lack of satisfaction in the committee submit a report to the Senate without it determining whether there were any Continental bonds involved in the

of President Harding.

It was there we are going to find the world. If they are not going to tell the world, then they are there.

The most disclosure in the Treasury scandal touched off a political exchange in the Senate today with demands for the resignation of high administration

and the calling of Gov. Franklin D. Roosevelt to a witness stand in the investigating committee.

INVESTIGATIONS CALLED FOR

an Indiana Republican, said Smith's name into the department to develop that

Smith was a heavy contributor to Smith's gubernatorial campaign in 1929 and subsequent

to the New York Banking Commission, but it was later that the New York

would not be called. Smith's \$100,000 contribution to the Republican 1929

Senator Reed, Democrat, declared the situation would be to the resignation of responsible

leaders. He demanded the retirement from the Treasury of Secretary Mellon and severely the silence of

Senator Nye, in announcing the inquiry into the Harding scandal, said the present plan is to investigate the situation to

to the securities which may be or may have been in the estate. He added that

investigation would not be done any next month, indicating the investigation is to be continued at least for several weeks

TRANSFER ORDER

Senator Harding signed the order under which Albert

of the naval oil reserves was to be turned to Edward L. Do-
